

PRODUCT DATA SHEET

Product ID RGL1
Description: Single Leg Webbing Lanyard & Shock Absorber

Accredited to: EN 354:2010
EN 355:2002

Material: 26mm water repellent polyester 37kN

Fittings: RGK1 and any compatible EN362 connectors

Max arrest force: < 6 kN

Features: Fitted with shock absorber pack

Lengths: 1.3m and 1.8m

An industry standard, and usually the minimum equipment issued / required with a harness for anyone working at height.

We use 37kN polyester webbing to manufacture this product which helps give the product a longer life. It is also treated with a water repellent coating which also extends the life of this product. This lanyard should be used when the operative is working from a static position, connected to a fixed anchor point. If movement between anchorages is required, a twin leg lanyard should be used (RGL3) to provide constant protection.
