

XTIRPA DAVIT ARM SYSTEM

610mm DAVIT ARM SYSTEM

For work areas that require regular set-up and tear-down and where a base can be permanently affixed to an existing structure, Adapter Base Systems are an ideal solution. These systems consist of a davit arm, mast, retrieval device and adapter base. This lightweight, reliable and easy to install system facilitates access to vertical confined spaces. The universal mast and davit arm allow for fall protection and retrieval and can be used and installed in many different adapter bases. The davit arm is equipped with a 5000 lb. (2268 kg) anchor point.
