

SAFETY EQUIPMENT SERVICE DIVISION

Safety equipment maintenance is crucial to ensuring that your equipment stays in operational condition which doesn't let you down when you need it most.

At Altitude Safety we have a manufacturer approved modern service centre run by a team of dedicated and manufacturer trained technicians, each with a wealth of knowledge and expertise that goes beyond just servicing your equipment.

We can service your equipment at our modern state of the art service centre or at an agreed location using our fleet of new on-site mobile service & calibration vehicles.
